THE NEW

RAYMOND RECORDER

No. 43

Vol. 2

Thursday, February 21, 1952

To The Citizens Of The Town Of Raymond

As a Candidate in the forthcoming Civic Election, for the position of Mayor in the Town of Raymond, I feel it a duty to the Ratepayers to make some statement of my policy regarding town affairs, should this responsibility befall me.

I have been a member of the Council continuously for the past 14 years and as such, have been connected with some of the town's major improvements such as water and sewer services during these years, and it will be my constant aim to further improve these systems whenever possible.

Community services and civic improvements are all meeting continued pressure for increased expenditure. These questions will require very careful consideration before sanction can be given, as the town at present is heavily involved in debenture payments in connection with water and sewer systems and construction of a new school. I feel capable of dealing with these matters and will do so to the best of my ability should I be elected.

More and better recreational facilities for the youth of the town are definitely needed and it will be my constant aim to better these facilities.

I shall endeavor at all times to render sane judgement in any decisions that I may be called upon to make should it be my lot to act in the capacity for which I am seeking election.

It now becomes the duty of all ratepayers to exercise his or her franchise by voting, only thus is the will of the ratepayer made known.

(Signed) L. R. Pack

The Busy Bee Club met at the home of Mrs. Ezra Christensen last Friday evening; the time being spent quilting.

A delicious lunch was served by the hostess.

Mr. and Mrs. Fritz Dahl have returned from Ogden, Utah where they spent an enjoyable time visiting relatives.

Our past faithful service to the Raymond School District leads us to realize the folly of election promises. There are a few facts that taxpayers should keep in mind.

1. For a number of years your School Board has stood 100% for an addition in territory to the present Raymond School District. We feel the land that is served educationally by our District, should be part of our School District. The Minister of Education has promised immediate action on this. Does this mean anything to you as a ratepayer?

2. Our new High School will be ready for the September term this year. Is this an asset to our community?

3. Kindly examine the Financial Statements of our School District for the past number of years. These speak for themselves.

4. Are you as a taxpayer basing your decision on incidental hopes and promises that cannot be fulfilled, or do you consider the weightier, major problems that can only be solved by years of study, by united effort and by constant knocking until the door is opened.

Yours for educational development,
J. Golden Snow
Wm. A. Anderson
A. Frelen Dahl

Kay Stone and Nola Atwood were home last week-end visiting with their parents. They are attending university in Edmonton.

Engagement Announced

Mrs. Annie A. Larsen wishes to announce the engagement of her daughter Elaine Marie to Allan Dale Nalder, son of Mr. and Mrs. Clifton O. Nalder. The wedding will take place March 8th, 1952.

THE RAYMOND LION

Attendance was better at the second regular Lions Meeting for February at 6:30, thirty-two convened for a delicious ham dinner.

Flight Lieutenant Ferguson of the RCAF and Bob Zobel from out West, having visited our Club, Mr. Ferguson is organizer for Air Cadet League of Canada. He delivered a short well planned explanation of the aims and working of a squadron. These men are of the opinion that Raymond should re-organize their Air Cadet Squadron.

Our own District Governor Jack Coulter made his official visit last Monday. He gave a comprehensive account of his work and of the development in the Association of Lions Clubs. Margaret and Nora Stone sang a couple of very pleasing songs for the boys. The Governor was well pleased.

At the close of the meeting Gov. Coulter called a special Directors Meeting to check the activities and projects of our Club. He was well satisfied with our conditions as an active organization.

Youth

Youth is not a time of life—it is a state of mind. It is not a matter of ripe cheeks, red lips and supple knees. It is a temper of the will, a quality of the imagination, a vigor of the emotions; it is a freshness of the deep springs of life.

Youth means a temperamental predominance of courage over timidity, of appetite for adventure over love of ease. This often exists in a man of fifty more than in a boy of twenty.

Nobody grows old by merely living a number of years; people grow old only by deserting their ideals. Years wrinkle the skin, but to give up enthusiasm wrinkles the soul. Worry

(continued on page three)

Nominations for the various positions in civic government were held on Monday February 11th. Those nominated were:

FOR MAYOR—L. Renan Pack and Frank R. Taylor

FOR COUNCIL—Mrs. LaVerne Anderson, Glen C. Bullock, John Evans, John Kenny, Albert (Mutt) Ralph, Robert W. Salmon. (Three to be elected)

FOR SCHOOL BOARD—Wm. A. Anderson, A. Frelen Dahl, Mrs. Mary Rodenbach, J. Golden Snow. (Three to be elected)

OR HOSPITAL BOARD—Lowell D. Ncombe, Mrs. Manilla Meldrum. (One to be elected)

Election Day is Monday March 3, and the polls, at the Town Hall, will be open from ten o'clock in the morning until seven o'clock in the evening.

Robert Bennett Weds Stirling Girl

Marriage vows were exchanged Wednesday in the Alberta Temple between Lorna, the daughter of Mr. and Mrs. Wm. Mertz of Stirling, and Robert, son of Mr. and Mrs. D. A. Bennett of Raymond.

Bill Bowden was Best Man at the Reception tendered the newlyweds in Stirling.

After a honeymoon trip to Salt Lake Mr. and Mrs. Bennett will make their home in Raymond.

I realize elections promises are of no real value.

My policy is that any public servant should devote himself for the betterment of the community, forgetting the individual. What is best for Raymond and district, I'm for it. With united effort we can do our part to make Raymond a City of which we can all be proud.

R. W. Salmon
(Signed)

Up to date there have been no developments on the robberies that took place in Town recently but the police are still investigating and are following leads that they hope will solve the case.

The question of the town hiring a nightwatchman was brought up at the Ratepayers Meeting. This, in our opinion would be a smart move for those in authority to give serious consideration. The Town Constable spends as much of his time as possible on duty at night but as evidenced by the recent robberies this is not sufficient, but he can in no way be blamed for the lack of police protection.

If a plan could be worked out with the local businessmen contributing to a nightwatchman's wages with the Town paying the balance, the chances of re-occurring robberies would be small indeed.

We offer our congratulations to one of our Lethbridge subscribers who reached the grand old age of 80 years on Saturday, February 16. He is Mr. George A. Terry who resided in Raymond for fifty years before moving to the city.

Mr. and Mrs. Terry also celebrate their Golden Wedding Anniversary this year. They were married on the 18th of August 1902 and have five daughters and two sons, all of whom are living near at hand and were present at Mr. Terry's birthday party. They also have 29 grandchildren and 5 great grandchildren.

If I am elected to serve on the Raymond Hospital Board I will strive, to the utmost of my ability to do my duty in behalf of the people of Raymond.

Sincerely,
Manilla Meldrum

Pearl Heninger of Magrath, Mr. and Mrs. Whitney Heninger of Lethbridge, Mirra Peterson of Welling and Marva Nalder and Virginia Rolfsen gathered at the Ellys Heninger home last week to honor Jan on her birthday. A very pleasant time was spent together.

To The Citizens Of The Town Of Raymond

Concerning the forthcoming election I wish to set forth the following program as a statement of policy in connection with Town Affairs, should the Mayor's responsibility become my lot.

Citizens of the Town should be given an opportunity of affiliating the Town with the CANADIAN CHAMBER OF COMMERCE. Should this decision not prove popular I would suggest the following procedure: ORGANIZE CIVIC COMMITTEES under Town jurisdiction somewhat as below:

(a) CIVIC WELFARE COMMITTEE

Represented by the Chairman of the Finance Committee of the Town Council and at least four other members, whose purpose it would be to study the financial affairs of the Town including TAXES, CAPITAL, INVESTMENTS, and TOWN ASSETS etc. and make recommendations regarding any items under consideration—

(b) CIVIC IMPROVEMENT COMMITTEE

This would be represented by the WORKS AND PROPERTY CHAIRMAN and four members of Service Clubs and other Town Organizations. Their responsibility would have to do with PUBLIC UTILITIES including GAS POWER, ROADS, TRANSPORTATION, BEAUTIFICATION, SIDEWALKS, BOULEVARDS, etc.

(c) SOCIAL WELFARE COMMITTEE

Represented by the Council by the Chairman of SOCIAL SERVICES COMMITTEE and would include representatives from Town Organizations, P. T. Association etc. They would study and supervise Social Services including Recreational centers and Facilities, Athletics, Town Libraries and Social Welfare generally.

OPPORTUNITIES EXIST
FOR COMMISSIONED RANKS

There's a service career for women ...

Limited numbers of women are being accepted now in the regular service of the expanding Royal Canadian Air Force. In the R.C.A.F., there are many jobs especially suited to the ability of women — jobs from which women can release men for other duties, or give valuable assistance. Women may be accepted for enrolment in any of the following trades:

**FIGHTER CONTROL OPERATORS • COMMUNICATIONS OPERATORS •
CLERK-ACCOUNTANTS • MEDICAL ASSISTANTS • RADAR
TECHNICIANS • ARMAMENT TECHNICIANS • METEOROLOGICAL
OBSERVERS • SUPPLY TECHNICIANS • DENTAL ASSISTANTS •
SAFETY EQUIPMENT TECHNICIANS**

The women who are accepted into the R.C.A.F., receive the same pay, rank and trade groupings as for airmen. To qualify, you must be single ... be between 18 and 29 ... and have Grade 10 education or the equivalent. Veterans up to 40 years of age are eligible.

Last Monday evening the 145 Quartet of Seventys enjoyed a program and supper in the Second Ward Recreation hall, with Carl Salmon as Master of Ceremonies.

After the delicious feast Kay Redd started the program off on a humorous note with a few jokes after which Ruth Salmon and Beth Zemp entertained with a vocal duet. Betty Evans was next on the program with three very enjoyable short readings, followed by a vocal solo by Myron Holmes and the concluding number was a skit by Theopians Clinton Hardy, Bill Hogenson and Harold Christensen of Stirling.

Harry Fairbanks then took over for the remainder of the evening for a few mixer dances. He showed no sympathy to those who disobeyed his instructions, as the Fourth Ward Bishopric found out. As a penalty they had to sing in a quartet, or rather a double quartet as their wives were allowed to help them.

Mr. and Mrs. Mike Rebalin recently celebrated their wedding anniversary with a dinner party with Mr. and Mrs. Fred Wendell, Lois Milner, Judd Heggie, Venita Vance and Jack Wendell present. Following the delicious dinner they spent the evening at the dance.

To The Citizens Of Raymond

It is the intention that these committees will act as a sounding board for public opinion throughout the Town on any service covered by the Committee. These committees will be required to report to the Council on alternate months with a written report and recommendations every three months.

To make progress every avenue of information should be considered — and progress will only come by persistent effort.

It is quite necessary that public opinion be represented through different organizations and it is for this reason that I am suggesting the above set up.

If this Town responsibility should be come my problem. I would recommend proposals similar to these be considered, and if my good friend on the ballot should receive the citizens approval, I would suggest that he take steps along similar lines.

Citizens of the Town have a very definite responsibility to vote, and the nomination slate provides a choice where there is little chance for mistake, regardless of whom they may select.

Yours for a better Raymond.

Sincerely,
(Signed) Frank R. Taylor

We offer our thanks to the Raymond Mercantile, Stone's Service Store and the Quality Market for their help in distributing the "Vote" dodgers. Few meat foods are more popular than those that comprise meat products that obtained from the hog carcass — mouth-watering ham, bacon, pork sausage, spare ribs and roast loin of pork. Good food, full of nourishment — strength building — delicious to the taste, yet I am sorry to say a very common food that under certain conditions, or might I say, because of certain conditions, can be a serious health menace to those who eat pork products.

Trichinosis is a disease that is largely peculiar to hog. Its transmission and incident infection to human beings is very clearly emphasized in a report by the Committee on Public Health Relations, made by the New York Academy of Medicine published by the Federal Security Agency, Public Health Service and Division of Public Health Methods, all of whom are Government agencies.

Coming right down to "brass tacks" on this exhaustive report, the most upsetting fact was developed by what is known as necroscopic examinations of 5,313 individuals in 37 states and the District of Columbia. This study was made over a period of years and revealed the astounding fact that 16.1 per cent of the total number of patients had trichinosis infection. That means that more than 16 out of every hundred patients carefully examined showed "positive". Other tests involving 3,000 hospital patients over a widespread area, showed a slightly higher per cent "positive", namely 16.7 per 100.

There is another angle to this transmissible disease from hogs and pork products that is quite alarming to all of us: a large part of these patients had their cases MIS diagnosed by their medical advisor. Some of these cases were diagnosed as the LaGrippe, nephritis, rheumatic fever, gastritis, food poisoning, acute sinusitis, etc.

The passing of this information to the locker operators of the country is not with any intention of reducing the consumption of pork products, for certainly they represent much of your business, but before you get through reading this article you will learn that the locker plant is in a particularly favorable position to PREVENT any infection to any of its patrons by the transmission of trichinosis in any pork they process for the patron.

In explanation of this disease of swine the Merck Manual of Diagnosis and Therapy, one of the best-known manuals of medicine published in this country, in its eighth edition says that this disease is principally contracted by eating pork that is infected and is caused by taking into the stomach the larvae from such infected pork. It is a tiny worm. It imbeds itself to the bowel mucous and the extent of its presence is confirmed by the statement that about 17 per cent of the adult population of this country is said to be infected.

Frequently the cases are so mild and so difficult to diagnose that the presence of the infection is only determined by an autopsy and the indications found in small clarifications in the muscles.

It is further stated that the mortality rate directly traceable to trichinosis is quoted at 5 per cent. There is much more in this fine reference book on the subject, both in diagnosis and therapy, but the facts as stated give you a pretty good idea of what trichinosis really is.

The infection and presence of this disease in hogs has at many times affected our foreign trade, principally in European countries — France in particular only accepts fresh pork products for import that HAVE BEEN FROZEN.

About 70 per cent of all the pork products consumed in this country are certified by the Federal Meat Inspection division of the Agriculture

Department. This certificate reads: "U.S. Inspected and Passed".

This means that such products have been inspected in the regular routine of inspection of all meat so inspected, but it does not necessarily mean that it is free of trichinae. So this is no insurance even under BAI inspection that there are no trichinae present.

One of the principle causes of this disease in hogs is the feeding of uncooked garbage or other food that contain infected meat scraps, or in fact many kinds of swill and garbage. It appears that the heating of all pork cuts to 137 degrees F. will destroy trichinae. However, this means that if a pork roast is cooked at customary temperatures the 137 degrees F. MUST BE THROUGHOUT the entire roast. This likewise applies to all pork cuts.

These facts must call to mind the efforts of the writer in a great many articles urging that the inedible offal be COOKED, partly because of the monetary recovery to be derived from such cooking and rendering but also because when this cooked product from slaughter is cooked under steam pressure the meat scraps and soup or "stick" makes a perfect ration for hogs when mixed with grain. And please bear in mind that it is a safe ration and one that cannot give the hog trichinosis.

There is another thing that I have learned from the research that was necessary to pass this information on to you in a simple manner, and that is that freezing fresh pork products in the manner and for the time most locker plants subject this product to another SURE way to kill any trichinae that may be present.

This is something that should be passed on to your customers — it is a fact that their quick-frozen pork is absolute insurance that they run no risk of contracting trichinosis, but it should always be emphasized that all fresh pork products should be cooked to an inside temperature of 137 degrees F. This is just an added precaution to the already described advantage of quick freezing.

It is also recommended that subjecting fresh pork to curing as in hams and bacon destroys the trichinae and on top of it all the locker plant has, if it furnishes its patrons with smoked products at recommended temperatures in the smokehouse, the added advantage of a heat treatment that takes all the chance out of contamination by trichinae.

Through this interesting research on a disease that causes 5 per cent mortality of the total affected 17 per cent of all adults in this country, we are told that when fresh pork is frozen at zero degrees (and most locker plants freeze at a much lower temperature) and if the meat is then stored for 48 hours at zero degrees all trichinae present are destroyed.

So it appears that the locker operator really has something to present in its proper light to his patrons.

Convenience, economy, and service are of the utmost importance but you can add to that, insurance against this dread disease of trichinae. Follows, you really have something here and certainly you should make use of it, not only for your own benefit but as a contribution of your locker plant for the safeguarding of the public health.

You have seen from the facts submitted in this article that trichinosis is a serious problem in public health, because of its appreciable mortality among the actually recognized cases and also because of such a widespread invasion of this disease which is not easily discovered in ordinary diagnosis and treatment.

There is a lot of truth in the old adage that "an ounce of prevention is worth a pound of cure" and nothing can be truer than this ounce of prevention in the control of as tricky a disease as trichinosis. Advt.

LOST Large Scoop Shovel just south of town with a large "A" burned on the handle. Please return to Husband: Did you scold Junior for imitating me? Wife: Yes, I told him to stop acting C. E. Alfred like a fool.

The Locker Way - The Saving Way

HOME FREEZER SERVICE

We extend all of our services to owners of home freezers at the same rate as our locker patrons. Home units are storage units not designed for quick freezing. Get the greatest possible satisfaction from your freezer by having all your food properly processed — it really pays.

CURING

We offer a full pork processing service including cutting, wrapping, freezing, curing, lard rendering and sausage making. You supply your own pork or we will supply it at 1¢ over stockyard price plus slaughtering.

PROCESSING

The greatest care is exercised in the handling of your meat under clean, sanitary conditions. First it is aged in our cooler, then cut up with scrupulous care to fit your own particular individual likes. Do you like your steaks a little thicker or your roasts boned? It is specially wrapped to insure protection against dehydration, etc., cuts marked, dated, quick frozen at 20 degrees below zero and placed in your locker. Because we earnestly strive to render service which is so necessary to obtain frozen products equal in every way to fresh products, we strongly discourage anyone doing their own processing.

WHOLESALE

In order to make locker service economical to patrons unable to raise their own meat we supply meat to them at a special price. During the high price of meat we are supplying any grade of beef at 1¢ over packing house price, pork at 1¢ over stockyard price plus slaughtering. Actually this is cheaper than the farmer can slaughter his own beef.

ATTENTION MR. FARMER

Now is the time to have that curing done for spring and summer work — Don't delay until you are busy. Enquire about our slaughtering service today.

doubt, self-distrust, fear and despair these are the long, long years that bow the head and turn the growing spirit back to dust.

You are as young as your faith, as old as your doubt; as young as your self confidence, as old as your fear; as young as your hope, as old as your despair.

In the central place of your heart there is a wireless station; so long as it receives messages of beauty, hope, cheer, courage, grandeur and power from the earth from men and from the Infinite so long you are young.

When the wires are all down and all the central place of your heart is covered with the snows of cynicism, then are you grown old indeed and may God have mercy on your soul.

One of the patriarchs of Canadian radio is E. V. Young of Vancouver, whose smooth, deep voice is heard Thursday nights on the CBC Trans-Canada network in the program "Eventide". For nearly nine years he has brought comfort and inspiration to listeners with his readings from the rich heritage of Christian literature. He also reads extracts from religious works on the "Vesper Hour", broadcast in Western Canada on Sunday nights. He is frequently heard in CBC drama programs and is an active member of a Vancouver Little Theatre group.

Chips From The Scout Log

Previous Activities.

This week the boys were instructed in knots and lashings. Everyone likes a game, and in scouting, games are put to a useful purpose. In the knotting game played, the Foxes won, but the Beavers took the lashing games.

Saturday, of course, was the big troop hike. Most of the boys braved the wintry weather, and were well paid with a good time. There was cooking, of course, that's one of the things a Scout must learn to do. And to wear off all that energy the boys played games and did a little curling on the ice with real rocks. A few of the boys got a little wet but all in all, it was fun.

A short while ago a new member was added to the troop. In the investiture Donald Grant gave the Scout Promise and Law and received the Troop Colors.

In the Staff Competition here are the results. First place and 75 points went to Sam Longbotham for the best carved staff. Second place and 70 points went to Sam's brother Ron who also had a very well carved staff.

Future Activities

The whole troop is going to the show this week to see "Kim" the well known characters from whom part of scouting was taken.

Next week's instruction will be on tracking and Kims game.

Wednesday afternoon the Ladies Literary Score met at the home of Mrs. Beth Walker for their monthly meeting. Mrs. Inez Hicken very interestingly reviewed the book "Dowager Queen Mary".

Mrs. Emil Laqua was a special guest at this gathering.

A very tasty lunch was served by the hostess at the conclusion of the afternoon.

NOW PROVEN IN PRAIRIE-WIDE USE!

'MERGAMMA'C CONTROLS WIREWORMS, SEED-BORNE DISEASES IN ONE OPERATION!

Last year, thousands of western farmers treated cereal crop seed with 'MERGAMMA'C. Results conclusively proved that 'MERGAMMA'C—

- Kills wireworms and controls seed-borne diseases in ONE operation.
- Halts wireworm damage for AT LEAST three years.

Enquire also about companion seed dressings — 'ABOL,' for cereal crop protection against wireworms only, 'AGROK' C, for protection against seed-borne diseases! Order from your local Dealer. If not available, write for name of nearest Dealer. Free booklet on request.

It's Not the Weather — It's Just Bill
 Local citizens may wonder exactly why we have been favored with a little warmer and fairer weather recently. We think we may have the answer.

Bill Nemeth is our benefactor. Until recently Bill was working on a construction crew in Waterton Park but then the powers that be sent a wire to summon him to a new post. He is now employed with the Weather Bureau and is using his influence to bring us such nice weather.

It's as simple as that.

Fathers and Sons Enjoy Themselves

Last Wednesday evening about 76 Fathers and Sons enjoyed a sumptuous banquet and entertaining program in the Stake House.

A successful party of this sort could not be had of course without the cooperation from the mothers and daughters who prepared the dinner and assisted in the serving, though each boy did a nice job of serving his father. Between bites Jim Grant, Ken Stone, Clarence Allred, Howard Rasmussen, Will Wilde, T. T. Mendenhall and Bruce Galbraith provided entertainment with their supply of jokes.

T. T. Mendenhall was the Master of Ceremonies for the following program: vocal duet by Gerry Gibb and son Jesse Gibb; piano solo by Doug Stone; a Skit by David Galbraith and Lynn Stone; short talks from Pres. John Allen and Bishop Snow; and a Reading 'Wise Or Otherwise' by Howard Rasmussen which concluded the full evening.

Mrs. Lettie Litchfield, who was in charge of the dinner, was assisted by Eunice Snow, Fanny McBride, Nita Mendenhall, Annie Fawns, Violet Christensen, Edith Woo'ey, Helen Babb, and Anne Turner Irene Jensen and Ollie Turner supervised the serving.
